

30 Day Legal Technology Assessment

Why spend big dollars on training initiatives that traditionally do not work because of archaic approaches? Do you have an understanding of what exactly your people know and don't know when leveraging basic office technology (Word, Excel & PDF) to complete daily legal tasks?

Our 30 day Legal Technology Assessment (LTA) Clinic can change that dynamic cost effectively and with a hand's off approach.

Test -- Train -- Test

Throughout the 30 day period, users follow our test, train, and test again methodology using the LTA Trainer Edition.

1. Each user takes a diagnostic assessment at the start of the 30-day period.
2. The LTA Trainer Edition is then provided to each user for a three week period giving them access to real-time feedback on their progress.
3. During the final week, each user retakes the assessment for validation purposes. Users may take the assessment as many times as needed during this week until they achieve a "Qualified" or "Expert" level score..

Upon completion of the 30 Day LTA Clinic:

4. Each user has 60 days of the LTA Trainer Edition available to them.
5. Each user that successfully completes the LTA Clinic by achieving either "Qualified" or "Expert" level score receives a digital badge, valid for a one year period.
6. If 75% of your users successfully achieve a "Qualified" or "Expert" score, you receive 5% off your final invoice. If you have a 100% success rate, you receive 10% off your final invoice.

Do away with the traditional, no-results approach to training, and experience the new wave of assessment, training and validation.

Legal Technology Assessment Price Model			
	1 Module	2 Modules	3 Modules
1 - 10	\$425	\$575	\$750
