

LEGAL TECHNOLOGY ASSESSMENT LAW SCHOOL EDITION

Do you want your students to leave law school with the basic technology skills necessary to be successful in today's legal market?

Currently used by the AMLaw 100, corporate in-house counsel and a several of the State Bar Associations, the LTA is a competence-based assessment paired with synchronous, active learning that deliver an immediate, individualized training curriculum.

Whether you implement the LTA into a technology related course, or for the entire school to access, the LTA ensures that your students are competent with the basic technology tools of their trade: Word, Excel, and PDF.
