

# LEGAL TECHNOLOGY ASSESSMENT & SUMMER ASSOCIATES

## Summer Associates -- Are They Really "Technology Competent?"

Procertas' Legal Technology Assessment (LTA), an integrated assessment and training platform, brings competence-based learning to tech skills in legal. Our diagnostic assessments provide a clear picture of aspiring lawyers' proficiency, or lack thereof, with what will be the basic technology tools of their trade (Word, Excel, PDF). Our interactive trainers deliver adaptive, synchronous, active learning with an individually tailored curriculum and a structured feedback system that closes the learning loop. Our validating assessments confirm retention, confer microcertifications, and create a transparency mechanism that lends itself well to gamification.

Our Summer Associate Program is flexible, customizable, and leverages all available modules (Word, Excel & PDF).

### SUMMER ASSOCIATE PRICING
